

# MOSA HASN MOSA

## SENIOR BACKEND DEVELOPER(.NET)

### CONTACT

- +201150338846
- mosa,hasn,mosa@gmail.com
- <https://github.com/mosageneral>
- Egypt - Giza

### SKILLS& TOOLS

- C#, .NET Framework: Proficient in developing robust backend solutions.
- TypeScript, JavaScript: Skilled in building interactive and dynamic web applications.
- HTML, CSS: Expertise in creating responsive and accessible user interfaces.
- Angular: Experienced in developing single-page applications (SPAs).
- Ionic: Proficient in building cross-platform mobile applications.
- Entity Framework: Expertise in ORM for efficient data management.
- SQL: Strong knowledge in database design, optimization, and query writing.
- Xamarin Forms: Skilled in building cross-platform mobile apps with a single codebase.
- ASP.NET Core, ASP.NET MVC: Proficient in developing scalable and secure web applications.

### DEVELOPMENT TOOLS:

- Visual Studio, VS Code: Extensive experience in using integrated development environments (IDEs) for efficient coding and debugging.
- SQL Server: Proficient in database management and optimization.

### PROFILE

I am a highly skilled and dedicated software developer with over 5 years of extensive experience in the technology industry. My expertise lies in writing efficient and robust code, developing scalable applications, and leading projects to successful completion. I thrive in dynamic, fast-paced environments and possess exceptional problem-solving abilities and a quick learning aptitude. I am seeking an opportunity to contribute to an innovative team and drive impactful solutions.

### WORK EXPERIENCE

#### Senior BackEnd Developer

Mega Trust Tech

June 2023 - Present

- Leading the development of multiple web and mobile applications using ASP.NET Core, Angular, and Ionic..
- Mentoring junior developers and ensuring adherence to best coding practices.
- Overseeing the transformation of legacy systems into modern, efficient codebases.
- Collaborating with cross-functional teams to deliver high-quality software solutions.
- Conducting code reviews and providing feedback to improve code quality.
- Managing project timelines and ensuring timely delivery of features.

#### Senior BackEnd Developer

OneTelecom KSA

December 2020 - June 2023

- Developed and maintained the company's main product, WarshahTech.
- Supported junior developers in their tasks and professional growth.
- Developed a mobile application for WarshahTech clients using the Ionic framework.
- Transformed legacy code into a professional code design.
- Coordinated with the QA team to ensure high-quality software delivery.
- Implemented security best practices to protect sensitive data.
- Led daily stand-up meetings and sprint planning sessions.

#### Full Stack .Net Developer

Right Hand Solutions (Kuwait), Cairo, Egypt

June 2019 - December 2020

- Developed the web API for Arkan App, similar to Otlob and Souq.
- Created smartphone applications using the Ionic platform.
- Provided support for old WebForms and desktop applications.
- Integrated third-party services and APIs to enhance application functionality.
- Troubleshooted and resolved complex technical issues.
- Collaborated with the UX/UI team to create user-friendly interfaces.
- Optimized application performance and scalability.

- Postman: Skilled in API development and testing.
- GitHub: Expertise in version control and collaborative development.
- Azure: Experienced in deploying and managing cloud-based applications.

OTHER SKILLS:

- Agile & Scrum: Experienced in agile methodologies for project management and team collaboration.
- Problem-Solving: Strong analytical and troubleshooting skills for resolving complex technical issues.
- Communication: Excellent verbal and written communication skills for effective collaboration with team members and stakeholders.
- Quick Learner: Ability to rapidly acquire new skills and adapt to changing technologies.

Bachelor of Education  
South Valley University

2014-2018  
Very Good

ITI  
Information Technology  
Institute

2018  
Very good

LANGUAGES

English   
Arabic

Full Stack .Net Developer

Hard Task (Kuwait), Salmiya, Kuwait January 2018 - June 2019

- Collaborated on developing multiple web applications like Majales, Esa'al, Bab Elkhair, and Kepler.
- Developed e-commerce and social network solutions.
- Implemented responsive design principles to ensure cross-device compatibility.
- Conducted thorough testing and debugging of applications.
- Wrote and maintained technical documentation.
- Participated in code reviews and knowledge-sharing sessions.
- Worked closely with stakeholders to gather and refine requirements.

PROJECTS

\*Only Enterprise Projects

- **TaskedIn**  
Taskedin is a task management App same like jira , asana And Trello  
  
Tech Used : AspCore , Clean Architecture , RepositoryPattern , Ef Core , Sql Server , Docker , HangFire , Async , SignalR , AutoMapper, Identity Server With JWT Token , PayPal And online Payment
- **WarshaTech**  
WorkShops ERP System  
  
Tech Used : AspCore , Clean Architecture , RepositoryPattern , Ef Core , Sql Server , Docker , HangFire , Async , SignalR , AutoMapper, Identity Server With JWT Token , online Payment, Ionic , Angular , Html, Css , Bootstrap
- **TaskedIn Meet**  
Meeting App Like Zoom, GMeet And MicroSoft Teams  
  
Tech Used : AspCore , Clean Architecture , RepositoryPattern , Ef Core , Sql Server , Docker , HangFire , Async , SignalR , AutoMapper, Identity Server With JWT Token , Web Socket , Twilio
- **KSE Online**  
Entire Automation System For kuwait society of Engineers  
  
Tech Used : AspCore , Clean Architecture , RepositoryPattern , Ef Core , Sql Server , Docker , HangFire , Async , SignalR , AutoMapper, Identity Server With JWT Token , Integrations With Other systems
